

Subject:	SUPPLIER'S WRITTEN INSTRUCTIONS REGARDING CONDUCTIVITY
Proposal:	PRETREATMENT Working Group (21.11.07) The inspector should check whether written instructions indicating a higher limit are available.
QUALICOAT resolution:	TC Meeting held on 26 June 2008 <i>(ratified on 19 November 2008)</i>
Date of application:	January 2009
Amendments to the Specifications:	Paragraph 3.2.2
3.2.2 Chromate pretreatment This chromate or chromate-phosphate pretreatment must be carried out according to EN ISO 3892 . The conductivity of the final rinse preceding chromate pretreatment must comply with the supplier's written instructions and be checked by the inspector. [...]
