

Update sheet No. 2022/002 to the Technical Specifications Version 4.2. – July 2021

Applicable from the 1st of January 2024

Subject

EXTENSIONS

Proposal/Request

Based on negative test results of the neutral salt spray test on mono-layer coating systems, a revision of “§ 2.3.1. Extensions for coating systems in the license” is requested.

Qualisteelcoat resolution

No. 39/22.11.2021: § 2.3.1. will be removed from the specifications.

During 2022, each General Licensee can decide if the extensions will be published on the certificate or not. From the 1st of January 2023, only tested coating systems will be published on the licence document.

Approved

22.11.2021 by Executive Committee

Amendments to the specifications

Removal of § 2.3.1. Extensions for coating systems in the license.
